

Our nation came together to declare a War on Poverty in 1964 when President Lyndon B. Johnson created Head Start and other programs serving low-income families. Later in 1964, he signed the Economic Opportunity Act, which created Community Action Agencies, Job Corps, VISTA, and other programs to fight poverty. The country also saw broadly shared economic growth and the creation of vital programs serving our most vulnerable, including Medicaid, Medicare, and the permanent food stamp program.

The Agricultural and Labor Program, Inc. is proud to join in commemorating 50 years of Community Action in America.

### Message from the Board Chairperson

On behalf of the Corporate Board of Directors of The Agricultural Labor Program Inc., I wish to welcome all the community leaders, friends, corporate members, partners, staff and special guests to our 46<sup>th</sup> Annual Corporate Meeting and Luncheon. This message is dedicated to the ALPI Board of Directors and its Chief Executive Officer for the outstanding teamwork that has been forged in keeping this corporation #1 in the State of Florida.

This year is a special one as it commemorates the 50<sup>th</sup> Anniversary of community action, which developed under the Economic Opportunity Act of 1964. I thank President Lyndon Johnson for his vision to bring about social change in the lives of the poor, disadvantaged and disenfranchised members of our society.

Looking back over this past year, it turned out to be one of the most challenging yet ... cuts in our budget due to sequestration tested our corporate management and tried our resolve. This could have resulted in a great number of layoffs, but was averted by an effective plan devised by the Chief Executive Officer. Her plan effectively helped to minimize what could have been potentially disastrous for so many in this agency. I say "Thank You" to her for the leadership demonstrated in ensuring that employees and their families always remain a top priority.

Recently, the House and Senate Appropriations Committee released a bill to restore the sequester cuts to the tune of \$1.025 Billion, including a \$500 million expansion of Early Head Start and the creation of partnerships with child care. While we still face some future uncertainty in our Nation's economy, I feel completely confident that whatever ALPI encounters in the marketplace will be addressed and a business response with solutions will be developed by the Chief Executive Officer. The ALPI Board will continue to offer its full support to the Chief Executive Officer, thereby allowing and encouraging the continued success of the agency.

Lastly, it is imperative to recognize the innovatively visionary ALPI Board of Directors and our insightfully driven Chief Executive Officer, Deloris Johnson. Without your combined efforts none of this would have become a reality. The daily management of a nearly half billion dollars agency is not a simple enterprise, but with Deloris Johnson as our intrepid leader at the helm, I have no doubt that we will continue to reach for the stars and successfully attain all our objectives. Thank you to all our guests for joining us today and helping to commemorate our 46th year anniversary. Special thanks to Deloris Johnson, ALPI Chief Executive Officer, and her committed staff for another job well done ... without all of you none of this would be possible.

Dear Early Learning Provider:

Thank you for serving Florida families and helping to ensure our youngest students have the foundation they need to succeed when they enter kindergarten and beyond. Please allow me to take this opportunity to share good news with you regarding early learning in Florida.

Earlier this year, I signed legislation that restructures the state's early learning system. House Bill 7165 prioritizes early learning education by increasing accountability and transparency for early learning programs.

In addition, I am proud that the Florida Families First budget I signed this year provides more than \$1 billion for early learning, including an additional \$5 million – the first increased investment in Florida's children through early learning programs in 10 years. This is certainly great news for Florida families.

Early learning is important to Florida families because it supports both education and jobs. Thank you for your efforts to provide universal access to quality educational preparation, regardless of family income, to four-year-olds through Florida's free Voluntary Prekindergarten (VPK) Education Program. Thank you also for helping lowincome families struggling to be part of the workforce by providing child care through the School Readiness Program.

Your efforts are helping make the Sunshine State the best place for Florida families to live, work, and play and for our children to get the education needed to pursue their dreams.

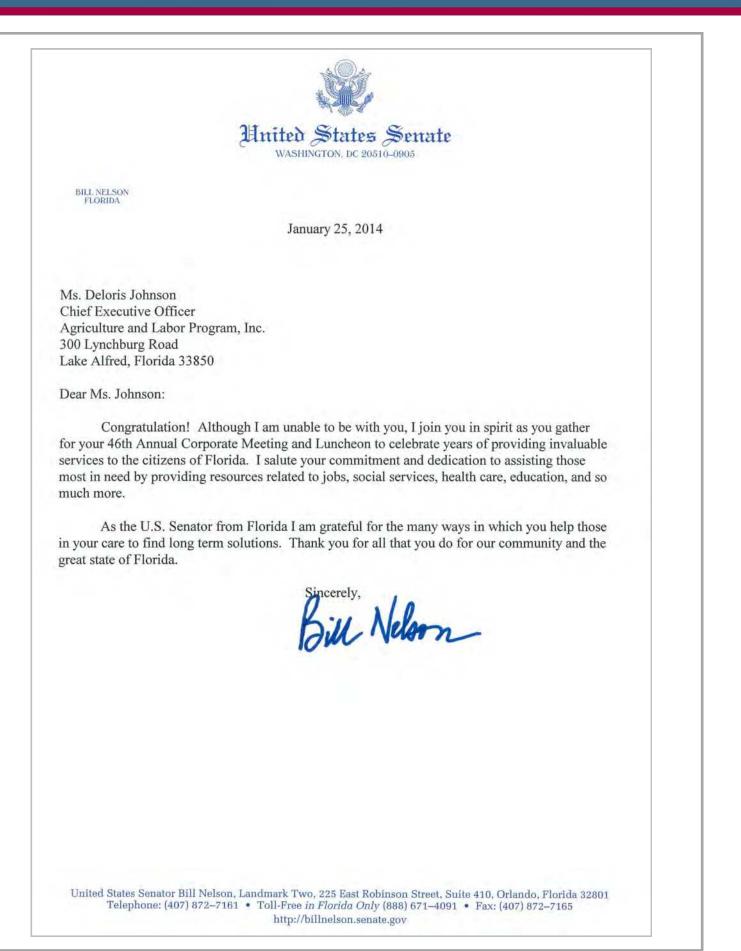

Sincerely,

Rick Scott Governor

Welcome to the 46<sup>th</sup> Annual Corporate Meeting and Luncheon hosted by the Agricultural and Labor Program, Inc.! This year's theme, "Embracing Diversity... Empowering People" is a timely one. America's rich and multicultural tapestry lends itself to a nation in which differences should be embraced and celebrated.

At Polk County Public Schools we encourage every individual to embrace diversity by recognizing each person is unique. We believe differences are strengths. Embracing these differences is a prerequisite for respect, social change and empowerment.

We applaud the Agricultural and Labor Program, Inc. for serving the needs of a diverse population in Polk County. Without the presence and tireless efforts of the individuals who work for ALPI and in conjunction with the organization, the needs of many families would not be met. The resources provided enable individuals to move far beyond roles predetermined by society and circumstances and empowers them to reach their potential.

On behalf of Polk County Public Schools I would like to thank you for attending the 46<sup>th</sup> Annual Corporate Meeting and Luncheon and for your continuous support of the ALPI Organization.

uring the 2012-2013 program year, the Agricultural and Labor Program, Inc. encountered many funding and program challenges, due in part to the federal government sequestration budget cut legislation and program school readiness performance expectations. A great deal of focus has been placed upon those of us who have been charged with the responsibility of securing and managing federal and state resources for the sole purpose of providing programs and services to meet the needs of economically challenged children, families and farmworkers. A significant challenge facing the organization during this period was the reduction of operating budgets by more than half a million dollars by July 1, 2013. The agency rolled up its sleeves and moved forward with the understanding that change is no longer a matter of choice, but a necessary tool for survival in an effort to embrace the effort ... embrace the challenge ... embrace the change. This following report is a snap shot of the agency's 2012-2013 accomplishments, challenges and opportunities.

### ANNUAL MEETING - INSTALLATION OF BOARD MEMBERS AND OFFICERS

### **REGIONAL ADVISORY COUNCILS**

The Corporation is divided into four regions: Southern, Central, Eastern and Northern, with each region having a Regional Advisory Council. The Councils serve important functions within the organization, and although their purposes may vary according to the mission of the organization, they are vital to the success of the organization. Councils: (1) are good will ambassadors, (2) are knowledgeable about the missions of the organization, (3) support the organization, (4) are vital communication links to the communities that the organization serve, and (5) seek at all times to follow the rules designed by the organization. Unlike the Policy Council and Policy Committee who are decision makers, the Advisory Councils do not make decisions for the organization. They advise decision-makers who may use the advice given them in making decisions for the organization. The Advisory Councils share their views and offer suggestions and advice to the Board members of ALPI. A summary of council activities and accomplishments for 2012 include the following:

#### **Northern Region Advisory Council**

During the 2013 agency operational year, the Northern Region Advisory Council adopted the theme "Focusing on Youth, Education, and Communities." A goal was set to begin the planning of a scholarship to be awarded annually in support and recognition of youth for outstanding achievement in the Northern Region service area communities.

The Northern Region Advisory Council requested the approval of the ALPI Board of Directors to move forward with the scholarship project. Board approval was granted.

The Council began its mission to alert the communities of this scholarship project. Positive feedback was received from the communities. Community leaders, parents, public officials, as well as educators, embraced the scholarship project. With this positive feedback, the scholarship committee focused on positive outcomes, and the work began. The approach was the kickoff of the 2013 Northern Region Advisory Council's planning activities for their annual meeting with an ad solicitation project to get feature ads from community supporters.

The scholarship committee held a planning meeting to discuss a name for the scholarship. It was agreed unanimously that the scholarship would be in honor of Grace Miller, a long-time ALPI Board of Director's member for more than 40 years, as well as a Northern Region Advisory Council member.

The ground work for the scholarship was completed as planned for the 2013 NRAC Annual Meeting. The ad book was completed and submitted to ALPI administration for review and publishing in time for the Northern Region Advisory Council's Annual Meeting scheduled on October 26, 2013.

Grace Miller was recognized for her outstanding work in the community and with ALPI over many years. She was presented the first copy of the scholarship ad book. This honor was well received by Ms. Miller, as well as her family members in attendance. Grace Miller, the scholarship committee and the Advisory Council were congratulated by ALPI's CEO, Deloris Johnson, for a job well done.

#### **Parent Involvement**

ALPI Head Start/Early Head Start has a community identity as a family-focused program with operating principles of parent involvement and empowerment. Parent Involvement continues to be the mainstay of the program. The involvement of parents continues to be vital for the center-based operation and the education of their children.

Parents have made themselves available to serve on committees, attend meetings, volunteer in the classrooms, and assist with community events. The program supports families by ensuring that parents have the knowledge, skills, and the resources they need to become self-sufficiency and by sustaining partnerships with parents and supporting them as primary educators, nurturers, and advocates for their children.

The Nurturing Fatherhood Program continued to focus its energy toward empowering, educating, and uplifting fathers and other male figures in the lives of children. The targeted demographic groups of our program were fathers from the ages of 18 to 35.

Approximately 165 fathers/father figures participated during the 2012-2013 school year.

### We believe that,

Strategic planning determines where an organization is going or more, how it's going to get there and how it'll know if it got there or not. Our focus of a strategic plan is on the entire organization, while focusing on a service or program. There are a variety of perpectives, models and approaches used in strategic planning. The way that a strategic plan is developed depends on the nature of the organization's leadership, culture of the organization, complexity of the organization's environment, size of the organization and expertise of planners.
